Relax..... You still have time...

*To win the 2007 Spring Outstanding Distributor Seminar including
"All Products Get Double Points!"*

There is no greater motivation, inspiration, or celebration than our Outstanding Distributor Seminars. For all of you that could not join us in Las Vegas, we would have loved for you to be with us. But, you have another opportunity to join us so don't pass this up! Now is the time to work hard and qualify to win a trip with us to beautiful San Francisco, California for our next Outstanding Distributor Seminar. HTE invites each one of you to reach for this goal, join us in San Francisco, and take your business to a new level!

All Products Get Double Points - this is the best way to help you to achieve the points you'll need by the end of this year. It is only good for the buyer and original sponsor; there is no commission value. However it is helpful in gathering those points. So what are you waiting for? Buckle your seat belt, hold on tight, and let's all have a fantastic year!

Be Excited About the Spectacular Seminar!

We'll kick off on Saturday, March 10, 2007. As always,

you'll hear from top Company Leaders, HTE's top distributors, and HTE Chairman and Founder Gordon (C. H.) Pan.

On Sunday, March 11, 2007 there will be an important announcement regarding our family of products and the successful marketing strategies for the SOQI Bed. **DO NOT MISS THIS!!!** Be one of the first to hear about all of the latest products and services HTE is offering!

Be Excited About the New Product Launch!

Do you remember our amazing slimming weapon - Nature Profile? And our most efficient slimming product - the SOQI Slimming Spa? We launched and presented in these in Las Vegas in 2006 and they have been BIG!

Be prepared to launch your business even further with awesome new products and amazing breakthroughs brought to you by HTE. Our newest product is "3 Low Formula." It lowers your blood sugar, blood fat, and blood pressure. Used with the newest Spa - 3 Low Spa, you and your downline will experience fantastic results in more healthy body. We know you are as anxious to see the new products and Spa as we are to introduce them. But in order to do that, you need to show up in person! So, make your plans now to join us as we unveil our newest items. You won't be disappointed!

Be Excited About Tons of SOQI Centers & SOQI Work-

shops

Back by popular demand, we'll devote a full day (Sunday, March 11th) to our breakout training sessions where HTE professionals will explain to you how to present the SOQI. They'll also tell you about the SOQI Center and Workshop opportunity that will soon be sweeping the country! You gotta be there!

Be Excited About the Honor Recognition!

Thanks to the outstanding efforts of HTE's Sales Force, there will be more people than ever to "Cross The Stage" and be recognized for their success in the HTE business. There is still time for you to be one of our "Shining Stars" in San Francisco!

Be Excited About the Special Offers!

Did you miss the fabulous chance to receive special promotions last time in Las Vegas? Don't sweat it! We will offer special prices on those hot items (only) for those who attend this fabulous opportunity!

There will also be an amazing raffle for the products! You can't miss this time!!!

Promise yourself that you will attend HTE's "Outstanding Distributor Trip Seminar" being held March 10-13, 2007 at the fabulous "Hilton San Francisco Financial District" in San Francisco, California! We'll see you there!!

Healthy Slimming - Slim Life

Nature Profile is the latest breakthrough in biotechnology weight loss products developed exclusively for HTE by Dr. Huang Ming Chuang. Nature Profile has become so popular that we decided to invite Dr. Chuang to answer a few questions about Nature Profile.

Q.What's the reason/motivation that you invented Nature Profile?

A.The latest survey of WHO (World Health Organization) show that there are nearly 300,000,000 obese adults. Obesity is not a question of being from a rich or a poor country, it's about individuals, society, and the nation's view of health and well-being. The statistics show that people who are obese decrease their lifespan by 9 years. They have health issues because of it and have 3 times greater risk of developing Diabetes, high blood fats, gallbladder disease, heart disease, hormone detuning, hypertension, degenerative arthritis, gout and a 1 to 2 times greater risk of getting cancer.

Over the past 40 years in the United States, diabetes cause by obesity increased to 55%, almost the same as the obese population itself! Moreover, people who are obese have a greater risk of developing digestive system diseases, varicose veins, endocrine and metabolism diseases, fatty livers, sterility, and breathing functions. In addition, obese people may suffer from social stigmatizations and discrimination. It may also decrease opportunities for school admissions or jobs; it can affect social relationships including marriage, and cause emotional distress and low self-esteem. Obesity includes physical, psychological, and social problems - problems we can't continue to ignore.

Q.What makes Nature Profile different?

A.It differs from other weight loss products in the market because most products focus on unusual digestion processes or decreasing the calorie intake using fiber or other diet products. Several of the other products also try to absorb the fat in the gastrointestinal tract to reduce the fat absorption function, without really achieving the slimming goal everyone needs, which is to eliminate fat from the body.

Nature Profile, with metabolism enhancement, achieves its results by combining improvement and suppression

of biometabolism. Nature Profile suppresses extra Carbohydrates, transitions fat, promotes the metabolism of Carbs to avoid the accumulation of new fat, enhances the metabolism of accumulated fat and then transfers to the energy source. This product mainly focuses on safety and balance. Good for your body metabolism, not like others that focus on unusual digestion procedures or decreasing the calorie intake, Nature Profile absorbs the fat in the gastrointestinal tract to reduce the fat absorption function. Moreover, this product is approved by CNLA (Chinese National Laboratory Accreditation), and it DOES NOT contain any western medicine, steroids, heavy metal, or unhealthy ingredients. It's absolutely safe with no known side effects.

Q.What benefits are there to taking Nature Profile?

A.With an exclusive grade of patented technology, Nature Profile contains 100% all natural ingredients and DOES NOT contain any western medicine, steroids, heavy metal, Reductrl, or Xenimal. It is absolutely safe and not only includes a **Triple Mechanism** that blocks carbohydrates, breaks down fat cells, and enhances your ability to burn fat, but also can definitely improve your health condition.

HCA, an extract used in Nature Profile, is from Garcinia Cambogia (a carbohydrate blocker) that suppresses your body's use of carbohydrates, so that when your body needs energy, it will go for the second source, which is fat. HCA acts when glucose transitions to fat in your body.

Molecular biology research confirms that fat burning only occurs in the mitochondria. In order for fat to go into the mitochondria smoothly, it must have one kind of auxiliary nutrient involved called Carnitine, which can act as a carrier to move the fatty acid from the outside of the mitochondria membrane to the inside of the mitochondria membrane. **Brewer's Yeast Powder**, contained in Nature Profile, breaks down fat for you.

Q10, the final ingredient to the **Triple Mechanism** is somewhat of a fat-soluble antioxidant that is easy to oxidize. This kind of enzyme is inside the mitochondria, and it plays a significant role in the process of enhancing your body to generate energy (ATP). For that reason, Q10 will keep generating the necessary energy that your body needs. When your body needs energy, it will consume fat to transition to energy.

Besides, there are more precious ingredients in Nature Profile can also improve your health.

Ginseng Flowers: 100% all natural and includes rich germanium element; enhances immunity, improves heart function, enhances wisdom and energy.

White Crane Flowers: Cleans and detoxifies the colon, heart, kidneys, liver, lungs and lymph nodes; promotes a healthy urinary tract and is good for asthma and respiratory illnesses.

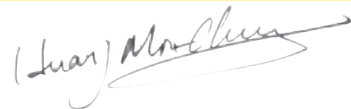

Lotus Seed: Good for heart and kidney function; reduces stress and keeps your emotions stable; improves digestion.

Green Tea: An anti-oxidant, it decreases cell damage.

Slimming Spa

Amazing way to slimming

- Successful testimonials

Hilda Marez Sun Valley, California

I am very pleased with the results obtained from the "Slimming Camp" program and Nature Profile. When I started the program, my weight was 202.2 lbs. I was not happy with my body, I had low self-esteem and I did not like to meet new people because of my appearance. Now, after 2 months, my weight is 163 lbs. and I feel like a new person. Now I love to meet new people and go to the mall. Thanks HTE for bringing us these wonderful products!

Total lost 39.2 lbs.

Maria Moran - Sun Valley, CA

I am very happy with HTE's new product market launch called Nature Profile. Using Nature Profile has been one of the most wonderful experiences with this company. When I started the "Slimming Camp," my weight was 198 lbs. I used to be depressed and had low self-esteem. Now my weight is 179 lbs. and I feel amazing! I am going keep working the program until I reach my goal. In addition, my desire is to help others benefit from these products the same way I have done. Thank you HTE!

Esther Flores - Van Nuys, CA

I suffered from pain in my legs and hands. Using the Electro Reflex Energizer (ERE) has made all of my pains disappear! I've also used other HTE products, but for the past 7 weeks, my favorite product became Nature Profile. In 7 weeks joining HTE's "Slimming Camp" program I have lost 13 pounds and I am very pleased with the results. Thanks HTE!

Maria Elena Ordaz - San Fernando

I want to share my wonderful experience with the HTE products. Specifically, Nature Profile, which helped me to lose extra weight in a fast and secure way - without side effects. I did get very thirsty - which is good because I increased my water consumption. I wanted to lose weight for a long time but I was afraid to use "natural" products because some people had a hard time - some even suffered kidney damage. Only HTE products give me confidence. Now I am keeping an ideal weight! I want and I invite everyone to try these amazing products. Thanks HTE!

A Chi Spa of one's own

--SOQI Bed testimonials and sharing

Gigi & Edilberto Balido - Virginia Beach, Virginia

Gigi and Ed ordered a SOQI Bed and installed it in their office in Virginia Beach, VA. Then, they utilized the regular weekly meetings of their existing sales network to introduce the products to the people. Asking them to each invite guests of their own, the network soon began to expand and new distributors signed up. Last September, they had their first big open house and invited HTE Vice President Kenny Lai and Dr. Evangeline Buenaventura to help create a grand launch for the area.

Today, the HTE network in these areas has evolved into a separate identity different from their Salad Master network with members both common to and distinct from each other. Regular weekly meetings are being held solely for HTE and open house sessions are being scheduled for both the Virginia Beach and northern Virginia areas of operation,

such as the big one last October 24th in Virginia Beach and on November 30th in Leesburg, Virginia. Slimming sessions are also going to be held in both areas before the year ends, and the early enthusiasm for them are already very high.

The operations are not without growing pains, however, as can be expected in this line of business. While the meetings are regularly held and new guests are constantly being invited, not everyone in the network has mastered the necessary sales skills yet. While the open house sessions have succeeded in generating sales, the levels are still not what Gigi imagines could be possible. However, new sales and training materials are constantly being added to her network of distributors, and more skill-building meetings are being scheduled to augment the network's collective experience.

While operations are not yet optimal, Gigi and Ed are very optimistic in the growth potential of this business and are looking forward to expanding it to their other network areas in the near future.

Lena Den - Mentor, Ohio

I am so proud of myself! I achieved the President's Level with HTE. Most my customers came from referrals. Sometimes I attend a Cancer Support group or a Diabetes support group and share my experiences with other people.

SOQI is an incredible medical device that is too good to be true. So I offer 1 week of treatments for free for our distributors or clients. My SOQI workshop is open from Monday to Saturday by appointment.

I feel like a million bucks now! SOQI and those amazing food supplements really changed my life. It's so rewarding. Thank you HTE!

Delores Mischleau - Northfield, Minnesota

The SOQI Bed is just as wonderful as I always thought it would be!! It has been my goal to have one of these special beds for a long time. It is terrific!! Each day the SOQI Bed is a great retreat – a great place to rejuvenate my body, detoxify, lose weight, energize me, balance my body, and more. My husband also loves to retreat to the SOQI bed after a long day of tiling. All five of my children love to wake up the day, or end their day with 15 minutes sessions. When friends or prospects come over, I treat them to a therapy session and the results are awesome.

One prospect, Artis was considering buying a Super Jump Start but within 5 minutes of being on the SOQI Bed she changed her mind. It was such a powerful experience for her, that she found a creative way to finance a complete SOQI Bed rather than just a Hot House or just a Chi Machine.

Just the other day, at my son's birthday party, people were coming early to experience the SOQI Bed and staying late for the same reason. One gentleman has been having problems with his back and after 1 session reported that he hadn't felt this good in a month, while having other types of therapies. My coaching is: start planning how you too can have your own SOQI Bed! You, your family, and your friends, and prospects will love it!!

Jerry & Josephine Cruz - San Francisco, California

We conduct our SOQI Spa workshops at our residences in California and Las Vegas, Nevada. It's very exciting and with great success; our SOQI bed sales soared, everyone loves it! We sold 16 SOQI beds in a period of 3 weeks just recently. We purchased our SOQI bed last year and I recommend for everyone to invest in it, you will all love it too! We enjoy it so much, it's such a wonderful experience of a total relaxation while listening to a beautiful built in surround sound music. We have an Energy Measurement Device machine that we use to measure the energy level of our client's internal organs. After the test, we print our client's health care analysis and evaluation report along with an aerobic equa-

tion treatment report on how to use our products. One of our clients that we tested is amazed on how our EMD test had the same result as her MRI test. Her EMD test was conducted one day before her MRI test. I was watching the news early this year and they reported that the energy measurement device is more accurate than MRI, it was a pleasant surprise to hear that from the media. We recommend for our distributors to have a SOQI Spa at home and share it to everyone you know, you will all enjoy and love it!

HIGH LIGHT OF THE MONTH

“Mabuhay! (Life! Full of Energy!)”

“We know that we can achieve this mission because we have excellent and beneficial HTE products that are valuable to everyone’s health!” by Jeremias and Josephine Cruz.

We were so excited when we joined HTE and delighted to become President Level Distributors. We purchased the Chi Machine & HotHouse in 2000, and it has turned out to be one of the best investments we’ve ever made in our lives. Without these wonder machines, neither of us knows if we’d still be alive today. They have been our lifesavers!

Back then Josephine had been virtually bedridden for 6 months with chronic bronchitis, always feeling very tired with no energy at all. She was taken to the emergency room several times due to numbness in her body and extreme breathing difficulties that caused her to pass out. She saw 4 different doctors and each doctor would prescribe an antibiotic that didn’t help the condition.

Josephine saw a demonstration of the machines but was reluctant to purchase them - until the HTE demonstrator assured her of the company’s money back guarantee.

After only 2 days of using the Chi Machine, Josephine felt more energized. Eventually, she was able to clean their whole house! The HotHouse and Chi Machine also helped her with severe back pain she developed after a head-on collision car accident. Her back pain was finally gone and she even returned to work again!

When she lost her son in 1986, Josephine suffered from a nervous breakdown and deep depression, which led to a doctor’s diagnosis of partial amnesia. With the help of these amazing machines, Josephine is now completely healed! She also lost 7 pounds after 1 week of using the machines. That was an unexpected, pleasant surprise!

Jeremias (Jerry) was diagnosed with

prostate cancer after undergoing a biopsy procedure. His doctor advised surgery to remove the cancer but he was reluctant to do it. The doctor advised him to take vi-

tamins with selenium or lycopene and stay away from red meat.

Josephine did some research and found an article from HTE testimonials that referenced the use of the Chi Machine and HotHouse in helping to eradicate cancers. Soon after, Jerry started using these devices regularly, especially the HotHouse. He slept under it throughout the night for

3 months. At his next blood test, he found out that his PSA level had dropped and, after another biopsy test, his doctor could no longer find any cancer cells!

The entire Cruz family is very thankful for having these miraculous machines in their lives. They gave Jerry and Josephine their lives back. Those machines are the reason why they’re very passionate about sharing and helping as many people as possible to enjoy the health benefits of HTE products.

In 2005, Josephine became the first HTE Filipino President Distributor. Jerry retired as an Electrical Engineer and continued working with his wife to support their passion and desire to share these medical devices so that all families can enjoy better health and well being. Their mission is to place HTE equipment and nutritional products in every household. Jerry and Josephine say, “We know that we can achieve this mission because we have excellent and beneficial HTE products that are valuable to everyone’s health!”

Jerry and Josephine both agree that they would not have made it to this level without the help and support of the HTE team, who were always there to assist, train, and provide workshops for their group in order to help them succeed and achieve set goals. Thanks to Eric Pan, Kenny Lai, Ben Lee, Phillie, Jose, and all of the HTE staff and members.

*“It’s a blessing and very rewarding to partake in HTE’s magnificent mission to deliver “Improved Health and Wealth Throughout the World!” I Salamat Po HTE. Mabuhay! **SOQI!!! SOQI!!! SOQI!!!**”*

- Jeremias and Josephine Cruz

Husband and Wife - HTE President Level Distributors.
