Celebrating HTE USA's 15th Anniversary

Our 15th Anniversary is upon us, and we're reflecting on our many blessings. The excitement of our continued growth speaks for itself. Over the first half of this year we have seen a 30% increase in sales. This growth is a result of successful strategies used by successful HTE Distributors. We provide the system and programs so you can focus on what is most important... building your business to a position of success.

Dancing SOQI 2008

The 2008 HTE Americas Convention and HTE USA's 15th Anniversary will be very exciting. Our convention slogan states: "**One SOQI One World.**" We believe SOQI is an incredible option for HTE Distributors. We offer you the opportunity to run a profitable business that continuously contributes to society's well being, whether you live in the United States or on the other side of the world.

Over three hundred distributors qualified for our San Diego Trip Contest and we believe it will be a grand festivity. There is no doubt about it. All of our attendees will have a wonderful 5 days, 4 nights experience in San Diego.

Fast Track For Your Success!

Exciting 3rd Quarter News! HTE promoted a series of exciting and motivational events. First is the Fast Track Program (see page 5). Our exclusive "**Fast Track Program**" assists people in

building or rebuilding a successful business that can be very lucrative while you're helping others. It uses unique marketing ideas to start and expand your network with a competitive advantage.

Supreme Honor for SOQI Club

HTE provides a tried and proven system for your success - a system that is simple to learn and easily duplicated by others. You just need to recruit 6 or more Distributors in 2 consecutive calendar months. Then, help 2 of them become promoted to SUC level or higher within 2 months of registering as a Distributor. Using the Fast Track Program in our SOQI Club system is one of the best ways to quickly build your SOQI business.

Join Our 2009 HTE Americas Leadership Conference in Dallas, Texas

If you want to be successful with HTE an important business skill needed for HTE Distributors is leadership. Now, you have a big chance to win a 5 days, 4 nights trip to Dallas, TX for one (1) including accommodations and airfare. Don't miss out on our 2009 Leadership Conference by not qualifying! For more details, see the next page, or visit www.hteamerica.com for rules and regulations.

The Power of Synergy

In short, we offer you an operation module that is simple to run, with a short-term goal to achieve, and a chance to win the Trip.

Providing the Fast Track Program helps you recruit more prospects and become quickly promoted to SUC level. Utilize the SOQI Club Program to duplicate two per month for 6 DIC and 2 SUC. Then you can qualify the Trip incentive in six months and use the MAC Express to promote to MAC. HTE provides you with powerful synergy to get you on the right track.

Other Supports and Ongoing Training for Our Distributors

From the moment you begin your HTE business we walk side-by-side with you through the process of discovery, initial and ongoing training, and continued support for your business growth. Except for our popular Fast Track, SOQI Club, and Trip Incentive, HTE provides a new Auto Reorder Program (ARP) for help in building your customer base. We also provide the Home Party Program for getting your business started.

Providing individuals with opportunities to increase their wealth and improve their health is HTE's solution for the future. Moreover, there's no better time to remind ourselves that we have the ability and the duty, to reach out and help our Distributors in need. To create a healthy, wealthy life for yourself and your network, "SOQI" is your best choice!

Thank you for joining with us, and Happy Anniversary HTE USA!

Miracles

About 3 years ago, my family and I were introduced to the Chi Machine, HotHouse, ERE, and E-Power by Mr. Hung Dao, who was my direct commander in the South of Vietnam Air force years ago. However, since we did not bear any obvious medical illness during that time to use these machines, we politely declined the offer. Not long after the offer was declined, my family's well-being was altered into such a despaired, hopeless, and desperate situation that we thought it would require a miracle to get out. My wife was going through an unexplainable disease that was difficult to know the cause or cure, and I was diagnosed with Hepatitis C! What could be worse than having both of these come at once?

We attempted to seek treatment for my wife from hospitals (including UCLA Medical Center), clinics, and specialists, but none could come up with the correct diagnosis. She also had many medical tests performed for analysis, but everything

looked normal. Meanwhile, she was slowly deteriorating because she could not eat much or get enough sleep. Her longest sleep, if she was lucky, would not last more than 15 minutes, even when using sleeping pills. Her main food was just a few sips of milk and a few spoonfuls of soup for an entire day. She was losing weight and was down to 85 pounds.

As the death of my wife was approaching, mostly due to her malnutrition and sleeplessness, we suddenly thought about Mr. Hung Dao and his machine introduction offer. Although we were losing hope, we decided to try another option besides going through other professionals. Needless to say what was going to happen next as the machines helped my wife's unknown disease as well as my Hepatitis C. Miracles do happen! Not only was my wife's life completely back to normal after using the machines for a while, she feels very energetic as if she was many years younger. She works very hard without feeling exhausted and can now travel by car for long distances; something that she could not do before. The E-Power also reversed her aging appearance: her face wrinkles diminished greatly. In addition, my Hepatitis C, which many South East Asians have to endure, was confirmed negative

from our doctor.

Furthermore, our daughter has had a knee problem and migraine headaches since she was 7 years old. After using these machines for a while, the headaches disappeared and her knee improved so much that she can run. These machines also improved our son's childhood allergies and recent skin rashes. Our son is no longer in agony and is enjoying medical studies at the USC graduate school.

After much of our own research and many consultations with experts in the areas such as "Tai-chi", "Chi Kung", infrared, body points, neural networks, body cells, circulations, etc., we applied our knowledge to the Chi Machine, HotHouse, ERE, and E-Power in unique combinations and special recipes. We utilized our own experiences to successfully help those patients who had suffered with external or internal illness for many years.

Last but not least, we are thankful for the Chi Machine, HotHouse, ERE, and E-Power inventors and designers. With you, many people have improved the quality of their life and have felt much better. Thank you HTE USA!

DANCING SOQI

* This program is good thru 7/1/2008 to 9/30/2008

With the constant increase of gasoline prices, inflation, and the possibility of a U.S. economic recession, here is your opportunity to get around these challenges and still be successful with HTE's Fast Track Programs.

Fast Track Program

1. To become a DIC - DIC Express Program:

Any new distributor signing up may use the special offer price of \$370.00 for the Chi Machine and 1 Total Health Formula with 30 BVPs plus an additional 15 BVPs for instant DIC qualification.

* Order must be purchased directly from HTE

2. To become a SUC - SUC Express Program:

Any distributor will be promoted to SUC (Supervisor) level after they have personally sold or purchased 2 Three Musketeers Packages, or after they and their 1st generation downline have each personally sold or purchased 1 Three Musketeers package within 30 calendar days of each purchase.

* Order must be purchased directly from HTE

* 1 set must be personally sold or purchased.

* HTE reserves the right to amend, change or alter rules and guidelines at any time without prior notice.

E-Power Testimonial

Dr. Pablo Betancourt
Guadalajara, JAL.

I would like to tell you about one of my patients who was under my care for Diabetes Mellitus; she depends on insulin to control her condition.

She started using E-Power on a daily basis. With the electron flow from E-Power, we noticed that there's a therapeutic modality that eliminates pain in a very impressive way. But that's not all: we also found that for the first time in her life, her blood sugar levels were very low. For that reason I suggested she lower her daily dose of insulin. The patient consulted with her primary doctor who agreed with my recommendation.

In the medical field there are no known cases or reports of a patient who relies on insulin and has been using it for a long period of time that has stopped needing their daily dose of insulin. On the contrary, these patients typically require more doses. It is very common for those who require a high dose to develop a resistance to insulin. Commonly, these cases do not have a good prognosis.

Today, my patient has stopped taking insulin; she controls it with pills and her blood sugar is still low. Of course she continues to use her E-Power on a daily basis.

God bless you all, and thank you for showing us the power of E-Power.

After a year and a half of looking for high-tech equipment, I found HTE Mexico and their wonderful products: The SOQI Bed, Chi Machine, Electro Reflex Energizer (ERE), and E-Power. I also found HTE who offered me a chance to be my own boss and have financial freedom.

I attended a two day HTE Business Seminar where they explained their Business Plan. This caught my attention because I did not believe that I would be a Plastic Surgeon my entire life. The stress, the long hours, missing my family – HTE presented an opportunity that could greatly change my life for the better.

I initially found that the use of HTE equipment would be very beneficial to patients before and after esthetic (reconstructive) surgery. The price of the equipment is reasonable, the equipment is guaranteed by an established international company, and is backed up by numerous health departments and governments.

What gave me the last push to get involved were HTE's weekly meetings and seminars, where you network with successful HTE leaders like they're family.

Now my clinic offers this high-tech equipment to my entire staff including traumatologists, pediatricians, internists, and ophthalmologist colleagues. Depending on individual cases, they refer some of their patients to me to see if HTE's equipment will help. For every person it helps, I feel a huge amount of satisfaction, not only because I've helped my patients, but because I can now expand my horizons and offer quality, efficient, and inexpensive well-being services while earning additional income.

My next goal is to become a President!

Ma. Guadalupe
Medina de Guerrero

I am 64 years old. By the end of 2006 I was suffering from depression. During that time doctors ran a test to check my calcium level, and the result was pretty low levels. They prescribed calcium to stave off osteoporosis; I started to take the calcium, but because of stress, I also had gastritis, therefore I stopped taking calcium. Gastritis is an inflammation, irritation or erosion of the lining of the stomach. It can occur suddenly (acute) or gradually (chronic), and the calcium was making it worse.

In December 2007 one of my sisters took me to a SOQI Center where I started to use the Electro Reflex Energizer (ERE), the Chi Machine® and the HotHouse™. After 3 months of using this amazing equipment, I felt completely recovered from my depression, I had no gastritis, and I had some varicose veins in my right leg that disappeared as well!

In January 2008 I started to use E-Power. By April I applied for the calcium test again. The doctors were totally surprised and said that the results showed that I had a calcium level of a 35 year old person! At the SOQI Center I was told that my body generated calcium by using E-Power.

Nowadays I am fine but I still use the products because I feel great and believe that they keep me healthy.

I want to say thank you (first) to the Lord and then to HTE as the products have been a blessing for me and my family.
