

Happiness is right around the corner

As Year 2009 is approaching, here we would like to share with you a wonderful and meaningful story....

Once upon a time a peasant couple prayed to God for luck and prosperity. In response to their prayers, three fairies, Wealth, Happiness and Love, were sent to their door. The three fairies revealed their names to the indigent couple and asked them whom they would invite into the house first. After a short discussion, the couple decided to invite Love to come in first. The Love Fairy stepped into the house, and the other two fairies followed. The Love Fairy turned to the couple and said, "Had you chosen either Wealth or Happiness Fairy to come in first, the other two fairies would have turned and walked away! That was the undisclosed rule. Congratulations, you made an excellent decision!"

A little love and little care can go a long way.

For the past twenty years, HTE has been doing business with love and care for our distributors and customers. We care about your wellbeing, and we always try our best to be attentive to all your needs because we believe taking care of our customers with love and care is our first priority. In the same way, by caring about and helping other people's health issues, and by providing them with means of solving their health problems, you, too, will be rewarded with happiness and prosperity without your even focusing it. We love to see your business grow into something meaningful and successful.

More energy needed than ever!

In order to fight against the recession, people will need more energy to help them stay healthy. As we all know, you need a healthy body to be successful in business. We see this financial crisis as a great opportunity to promote health consciousness, and we hope you would agree with our point of view.

More opportunities than ever!

Since the USA is now facing an economic recession of magnitude, and the nation's unemployment rate has hit a record high of 6.4%, US leading economic experts worry that the US economy may worsen farther and turn into a great depression. In order to assist our distributors, HTE has been working persistently towards providing our distributors with solutions and marketing strategies to fight against the recession. During a difficult time like this people seek new and creative business opportunities.

In the year 2009, HTE will host an International Convention for our 20th Anniversary in Taiwan. (HTE was founded in 1990 in Taipei, Taiwan) Distributors from all over the world will join together at this grand convention. It will be a great honor to attend this event. Because we would love to see you there, we will soon create a trip contest which will give you the opportunity to attend this convention in Taiwan. The seats will be limited for such a great occasion, so get ready to pitch in! You will be disappointed if you miss out this great chance.

The Formula of Happiness
