

Papaya leaf is soothing to the stomach and helps activate the enzymes.

Guava may support a healthy response of diarrhea, constipation, and weight loss, etc.

Fennel seed: High in fiber that is known to aid digestion and cramping and support the colon.

Pineapple may help to ease indigestion because it is filled with proteolytic enzyme that breaks down protein thereby promoting digestion.

3) **Intestinal soothers:** Important if intestinal tract is not working or inflamed.

Zucchini aids in digestion, constipation, and supports healthy blood sugars. The dietary fiber in zucchini also helps lower cholesterol.

Milk thistle seed is known to support the liver and gallbladder.

Marshmallow root supports healing the stomach and intestinal tract.

Cayenne Pepper is a natural source of capsaicin which inhibits substance P - that supports a healthy pain response. It also improves digestion and tonifies the digestive tract, and supports healthy inflammatory response.

Beet root stimulates the natural bile flow.

Other ingredients: Gelatin (capsule) & rice bran

SOQI Total Health Management

Adding SOQI-Zyme to the Multiple Energy Approach enhances the nutrient absorption to maintain good overall health.

SOQI-Zyme™

Dietary Supplements

A Professional Dietary Supplement for the Promotion of Optimal Digestive Health

What are enzymes?

Proper digestion is vitally important for optimal health and digestive enzymes play a key role in the process of assimilation - the absorption of nutrients into the body after digestion.

Their function is to break down all types of food into nutrients that the body can use for energy and other functions.

Missing enzymes may cause poisonous toxins which make it difficult to release, causing harm to our body.

Unfortunately, modern diet has foods that have been over-processed or over cooked - destroying the enzymes.

As we age, our enzyme production begins to decrease

- The pancreas becomes overworked
- Supplementing the diet with digestive enzymes may be needed to restore body's enzyme balance so digestive system maintains peak performance

Two simple things to help enzymes:

1. Chew food thoroughly. Digestion starts here, not stomach
2. Drink warm liquid with meals

Possible signs of enzyme deficiency

- Disturbed Digestion
- Allergies
- Low energy
- Heartburn
- Constipation
- Headaches
- Slow recovery
- Weight problems
- Indigestion
- Bloating
- Upset stomach
- Excessive aging
- Fatigue
- Gas

What is SOQI-Zyme?

- Powerful digestive enzyme dietary supplement soothing to the stomach
- Supports the body's enzyme balance for healthy digestive system and improved energy
- Foundational Health Formula, not a fad-type product, designed for long-term use with no side effects
- May benefit beneficial intestinal functions, to decrease inflammation and promote tissue healing
- May enhance the release of vital nutrients for energy, immune health and overall well-being

How is SOQI-Zyme different from the competition?

- Quality and benefits driven with optimized stomach tolerance
- Optimizing of enzymes for full digestion strength
- Formulated with clinical feedback by experts with over 50 years combined experience.
- Uses a low heat process (under 120°F) to keep the enzymes intact and not destroy them
- Contains three inter-related formulas to address common digestive issues
- No added fillers such as magnesium stearate or silicon dioxide

SOQI-Zyme provides a complete enzyme supplement.

The ingredients found in SOQI-Zyme are truly powerful, safe and effective in helping with the digestive system.

Here is a summary of why SOQI-Zyme is the best enzyme supplement for you.

First of all, it contains natural ingredients and comprised of THREE formulas to make enzymes work best.

1) **Enzymes** (plant enzymes) help digest food and are the better choice for the overall digestive support.

Protease helps break down proteins

Amylase helps break down carbohydrates so they can be used for energy

Lipase I & II helps breaks down dietary fats

Hemicellulase helps break down fiber-rich components

Lactase helps breaks down lactose

Pancreatin 8x (combination of protease, amylase & lipase) that is vital for people's metabolism and digestion

Papain (derived from unripe papaya) & **Bromelain** (derived from stems of pineapples) are both protease enzymes that help treat common stomach ailments, including bloating, constipation, indigestion, and irritable bowel syndrome.

Ox bile extract helps the digestion of fats

2) **Enzymatic Potentiators:** herbal sources added to help enzymes work better

Glutamic Acid used as a digestive aid.

1. Increases stomach HCL;
2. Make glutamine;
3. Feed intestinal cells;
4. Feeds brain cells
